Managing Director

Ship Repair & Maintenance Solutions Technical Excellence, Uninterrupted Operations.

With over 30 years of Marine industry operational experience, we deliver sharp, fast, and internationally compliant solutions to complex technical challenges in ship machinery and equipment.

Our objective goes beyond repair – we optimize operational efficiency while eliminating risks at their source.

Rapid Mobilization: 24/7 local and global technical support.

Sustainable Performance: Advanced maintenance strategies designed to minimize failure risks.

Expert Engineering: High-precision overhauls of main engines and auxiliary equipment.

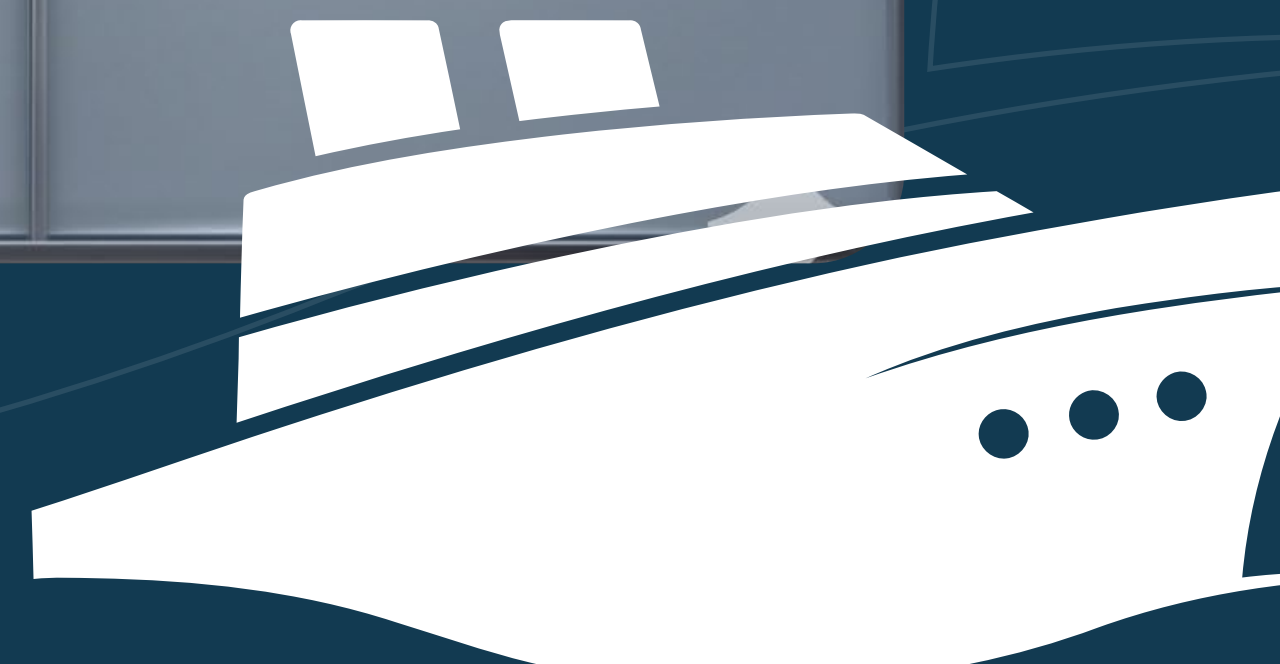

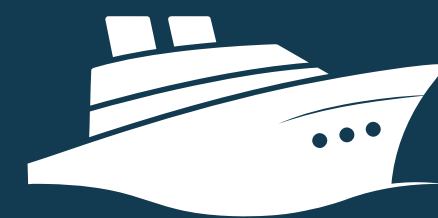

The Port of Cartagena is Colombia's premier maritime hub and a major Caribbean terminal, handling over 60% of the country's containerized trade. It is a top-tier facility for both cargo and cruise ships, boasting high productivity, deep channels for large vessels, and a strategic location. The Port Group operates two main terminals (SPRC and Contecar), connecting over 750 ports globally.

CGSS provides a top of the line service to its customers with utmost professionalism
